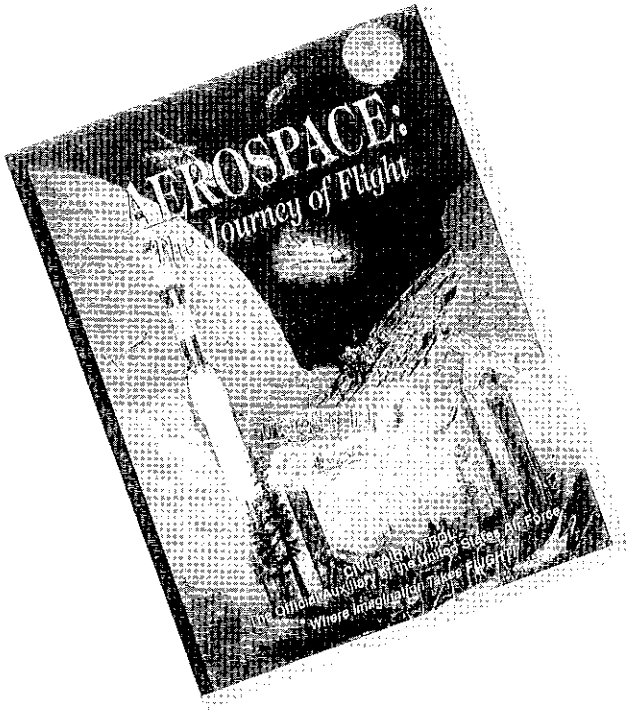
NEW textbooks

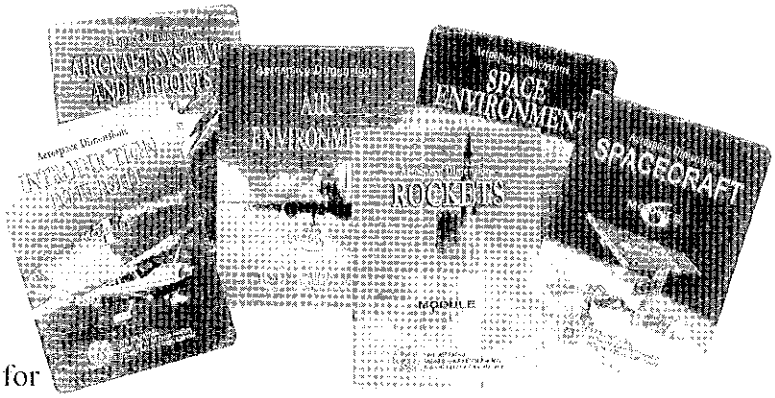
AEROSPACE: *The Journey of Flight*



Geared for Senior Cadets

Aerospace: The Journey of Flight is also a full-color product and is designed for cadets in Phases III and IV. Portions of this 27-chapter, 640-page, hard-bound textbook will become assigned reading for older cadets. These readings will be an excellent tool to help senior cadets fulfill their mentoring and instructor responsibilities with the younger cadets. The book contains six sections: the History of Air Power, Air Environment, Principles of Flight and Navigation, Rockets, Space and Aerospace Community.

Cat. No. 0038D **$17.50**
(Members Only)



NEW !
6 module set of
Aerospace Dimensions

The book, *Aerospace Dimensions*, is designed for Phase I and Phase II cadets. It is not a single textbook, but six separate softbound learning modules. The titles of these six modules are: "Introduction to Flight," "Aircraft Systems and Airports/Airways," "Air Environment," "Rockets," "Space Environment," and "Spacecraft." Each learning module consists of approximately 35 full-color pages.

Cat. No. 0037D **$9.50** (per set of 6)

also available:
Student Study Guide Cat. No. 0037F **$1.00** each

A cadet can complete each module over a two month period and the modules can be accomplished in any order so new cadets can join right in with the other cadets who are already in the program. The modules are supported with student, leader, and resource guides. In addition, each module has learning outcomes and "Test Your Knowledge" questions. Every module includes several fun and exciting hands-on, group-based activities that reinforce learning. All of these activities can be accomplished with readily available and inexpensive materials. For example, the "Introduction to Flight" module explains how to build a model of the famous supersonic SR-71 spy plane using foam pipe insulation and meat trays. It even flies. All the modules were field-tested in CAP units around the country this past summer and received rave reviews.

HISTORICAL MATERIAL

LITHOGRAPH OF THE EARLY DAYS.
Original painting by Robert C. Sherry depicting CAP Antisubmarine Patrol. March 1942 through August 1943. Full Color. Litho is 14 x 18.

Perhaps. after reading, you, too, will discover an opportunity to contribute your very best in your squadron; and FLY!

Cat. No. 418 **$6.95**

REQUIREMENTS FOR THE CADET PROGRAM

The cadet program requires completing 15 consecutive achievements through self-study and group effort. The following packets are for cadet use only, so the order must be accompanied by a valid cadet SSN. Other than the initial Phase I & II packet, which comes with initial membership, they may only be ordered once the previous phase of instruction is complete and the order should be accompanied by a valid CAPF 59-1 or 59-2. These cadet packets must be ordered from National Headquarters/ETTC by the cadet; however, individual items contained in these packets may be ordered by anyone from elsewhere in this catalog.

(PHASE I & II PACKET)
(Ach 1-7) **Cat. No. 41A** **$16.00**

NEW
(PHASE III & VI PACKET)
(Ach 8-11) **Cat. No. 48A** **$16.00**

BOOK OF PRAYERS
The Book Of Prayers is a valuable addition to any chaplain or moral leadership officer's library. The prayers were written by Air Force Chaplains for a wide variety of occasions, ranging from invocations at a national prayer breakfast to the opening of a sporting event. The book of prayers can serve as a training aid, demonstrating proper sensitivity in a multi-faith setting, and it can provide "seed thoughts" for the chaplain's own work composing prayers for CAP use.
Cat. No. 563B **$12.00**
